DISCOVERING BIODIVERSITY EDUCATOR WORKSHOP

This exciting day-long short course focuses on threatened and endangered Louisiana animals and habitats.

June 29, 2016

8:30 a.m. to 4 p.m.

Barbe High School, Lake Charles, LA

Provide your science students Louisiana-specific information, lessons and activities with our Discovering Biodiversity Educator Workshop!

[Find more information and registration form here.](#)

**FOCUS ON RED-COCKADED
WOODPECKERS, WHOOPING CRANES,
DIAMONDBACK TERRAPINS AND
MARSH HABITATS**

Participants in this dynamic workshop will receive hands-on instruction from experienced educators and biologists, get updates on Louisiana threatened and endangered species management initiatives, and go home with strategies and materials for including biodiversity instruction in the classroom. Attendees will receive a selection of related lessons with materials.

Special thanks to the Alcoa Foundation for funding the Discovering Biodiversity short course.

The diamondback terrapin is one of the spotlight species at the Discovering Biodiversity short course.

Biologist Eric Baka gives teachers tips on using binoculars to identify birds.
